The Dillard Treatment

FOR WHISKY, MORPHINE AND OPIUM HABIT.

Are You Addicted to the Liquor, Morphine or Cocaine Habit?

other cures. This treatment builds up the nervous system, increases the weight, and restores the whole human system. Dr. Dillard is located permanently in Guthrie and has been a resident of the Territory since 1890, has had 22 years experience in general practice and has made the cure of the above diseases a life study. To convince the public that he has the only permanent cure for the above diseases, Dr. Dillard will treat again free of charge, any case he fails to cure, or in other words, if any of his patients go back to any of the above habits within six months he will treat them again free. Dr. Dillard requires patients being treated for the liquor habit to remain with him one week, then they are placed on tonic treatment for thirty days, after which they are cured. For the drug habit they remain under the Doctor's care for from fifteen to twenty days.

If so, why not consult Dr. Dillard, the eminent specialist. Remember, Dr. Dillard is in no way connected with any other so called liquor cure, in fact it is an entirely different treatment than the Keeley and others. Dr. Dillard's treatment is a permanent cure for the liquor habit. To convince the public that he has the only permanent cure for the above diseases, Dr. Dillard will treat again free of charge, any case he fails to cure, or in other words, if any of his patients go back to any of the above habits within six months he will treat them again free. Dr. Dillard requires patients being treated for the liquor habit to remain with him one week, then they are placed on tonic treatment for thirty days, after which they are cured. TESTIMONIALS.

We Refer You to the Following Testimonials of Gentlemen Who Have Taken the Dillard Treatment and Who will be Pleased to Correspond to Regard to the Treatment.

VICTIM, Okla., Aug. 24, 1899
On the second day of October, 1899, I commenced taking the Dillard treatment for morphine and cocaine habit. When I commenced the treatment I weighed 130 pounds, my weight now is 220 pounds. I need morphine for 15 years and was cured in 15 days. Dr. Dillard cured me from the accused habit. No longer can express the many thanks to Dr. Dillard for what he has done for me, he also cured me of a long standing case of catarrh of the stomach. I had been treated by several eminent physicians and all failed to cure me. I am now in good health, all by treating in Dr. Dillard.
T. J. Clark.

Honor to Whom Honor is Due.
GUTHRIE, Okla., A. O. 24 1900
Having in the army received amputations and injury to right side of head I have from said cause been a terrible sufferer for years from pain. Nothing would alleviate said pain but morphine of which I became a habitual user. After the expenditure of one hundred and fifty dollars I was introduced to the eminent specialist, Dr. J. W. Dillard, whom

I found to be a gentleman, well versed in his profession and whose experiences in the alcoholic wards of Bellevue hospital, New York City, satisfied me of his ability and standing as both a surgeon and doctor. I wish to say to all who are given to the inordinate use of liquor or morphine that I cheerfully advise them to put themselves in charge of this good physician and by so doing be restored to manhood and mental and physical perfection. I truthfully and willingly contribute my testimonial to this gentleman's skill, when I say that after one month's treatment I have gained eight pounds in weight and have no further craving or desire for morphine. I will be pleased to be interviewed by persons interested in these cases and will also furnish all information in my power to persuade the afflicted of the valuable benefits that myself and others have received from this new and modern method of medicine.
Yours respectfully,
T. W. Baker.

BRYAN, Okla., Aug. 15, 1899
To Whom it May Concern:
This certifies that on the first day of August 1899, I took the Dillard treatment for the liquor habit. I have no desire for whiskey and never felt better in my life. Have gained 15 pounds and have worked every day since I left the doctor. I was with him one week. I can work hard all day and it does not tire. I would not be back where I was three weeks ago for \$1,000, and I can

and do cheerfully recommend the Dillard treatment for the liquor habit.
JOHN A. MOSEY.

DUNCAN, I. T., Aug. 1900.
To all parties afflicted with the morphine or whiskey habit I will say that on August 17, 1898, I went to Dr. J. W. Dillard a terrible wreck from the use of morphine and whiskey. I was under treatment 15 days, was completely cured. I feel like I have had a new lease on my life. When I went to the doctor I weighed 117 pounds and in thirty-two days I weighed 192 pounds. Now I have been cured for about one year and am in the best of health. My daily use of morphine was thirty grains and all the whiskey I could go. I had taken treatment from four different doctors but got no relief until I took the Dillard treatment. Respectfully,
PAUL HAINKETT.

On the 24th day of September, 1899, I took the Dillard treatment for liquor habit. I drank whiskey excessively for about twelve years. I was considered almost a total wreck and had reached a point that there had to be something done. I was introduced to Dr. J. W. Dillard, the specialist, and commenced to take his treatment immediately. At the end of the first week's treatment I went to work at my trade and have worked almost every day since. I have no desire for liquor and am in perfect health. I advise everybody who is addicted to the drink habit to consult Dr. Dillard. CHAS. WINCH.
